

I am writing to express concern that I could lose my local signal, 97.9 FM K-LOVE, due to the above proceeding. K-LOVE is the only Memphis station that is safe for my kids to listen to. It provides great music, pertinent information and encouragement to a large population of Christian people in the area and provides an alternative for others that want to escape the juvenile tastes of most other stations. Removal of our FM translators would be a blow to my family time in the car and my personal time spent going to and from work. Please retain the ability for FM translators to remain on the air as a service to the public.

Thanks for your consideration.
Carolyn Spencer
